“This project was a great success. There is a sign type for every room and wayfinding location, and it was easy to customize and incorporate the signage into the entire design concept of the facility.”

Tri-State Memorial Hospital

Signage Challenge

Tri-State Memorial Hospital was in need of a variable and consistent wayfinding and room identification system throughout the facility. The sign solution needed to offer a variety of functions, while remaining easy-to-read to assist doctors, patients and visitors in navigating the facility to different wings and specialty clinics.

Signage Challenge

North Gibson School Corporation was in need of interior wayfinding signage for their high school to guide students, staff, and visitors to the right rooms and destinations.

“The outcome is effective and aesthetically pleasing to everyone who visits. The signage blends well. It directly guides visitors, students and staff to their intended destinations.”
